

Eaton MD™
MOBILE DIAGNOSTICS

MD-200 Series

Vehicle Diagnostic Scanner

- **Affordable & Easy-to-Use**
- **Monitor Multiple Components at the Same Time**
- **For All Vehicle Makes and Models with J1587/J1708 or Truck Data Links**

This MD-200 Series tool is a rugged handheld device that offers a low-cost option to assist in the maintenance, troubleshooting and repair of today's electronically controlled truck components.

Features

- Scan tool provides quick, accurate electronic diagnostics – with no functional cartridges to misplace or share
- The only tool on the market that monitors multiple truck system components simultaneously – eliminating the need to swap cartridges to read each component
- Portable, self-powered unit does not need to be connected to vehicle for power
- New diagnostic functions and updates can be quickly downloaded via the Web – no need to wait for new cartridges to be shipped
- Guaranteed performance with a one year warranty

Compatible Standards

J1587/J1708

Vehicle Diagnostic Scanner

Scanner

- Monitor diagnostic messaging from electronic components on J1587 data link
- Read fault codes
- Monitor several components' parameters at once
- Record up to 30 seconds of snapshot data for analysis
- Easy selection of parameters (MIDs, PID/SIDs)
- User definable screens
